

# PARTNER PROGRAM

## INTRODUCTION

---

Become a registered Protectli partner to get access to customizations, volume discounts and more added benefits. Our partner program is designed to deliver added value to you and your clients beyond what our online store offers.

Signup is free and there are no minimum commitments. However in order for us to serve you best, our added services make the most sense for partners that are looking to acquire hardware at volume.

We sell direct and support our customers with our in-house teams worldwide: Protectli headquarters are in San Diego, CA serving the United States and rest of the world. An office in Frankfurt, Germany serves all of Europe and an office in Vancouver, Canada serves the entire Canadian market. We pride ourselves in being responsive and aim to go the extra mile to ensure that you and your customers are satisfied. While there are no specific requirements to join our program, we do want to make sure our philosophy aligns with yours.

Are we a good fit for each other? We love open-source and custom software, are enthusiastic about hardware security, and value customer happiness above all. If that sounds good, please read on and we'd be delighted to work with you.

## FEATURES & BENEFITS

---
